

PAULI POCKET

Kater Blau | Berlin, Germany

BIOGRAPHY

Pauli Pocket is an exceptional talent when it comes to electronic music and is known for her immersive and rhythmically complex sound. Based in Berlin, she became a resident DJ at the infamous Kater Blau in 2015, where she's crafted a unique blend of Indie Dance, Tech House & Techno. Her whole journey started back in 2008 in the tender age of 14. At that time Pauli's gigs were marked by her humble beginnings: carrying vinyl records in a plastic bag, often a written permission of her mum with her, as she was actually too young to enter the clubs. Pauli Pocket has a strong connection to the city's underground electronic scene. By now, she has also made a name for herself far beyond the borders of Berlin and Germany and is now touring the entire world. Her sets are dynamic journeys that captivate listeners, characterized by deep basslines, intricate rhythms, and a hypnotic but forward flow. Pauli Pocket's music is both deep and playful, resonating with audiences through its emotional and energetic depth.
